Notes—(1) The provision for Federal income tax for the period beginning Jan. 1, 1941 is based upon an estimated tax rate of 30%.  
(2) No provision has been made for excess profits tax for 1940 under

the Excess Profits Tax Act of 1940, since the companies in this Group expect to join with others in a consolidated return for that year, in which event the companies have been advised by tax counsel that they would not be subject to said tax. If, for any now unforeseen reason, each of the companies should be required to file a separate excess profits tax return for 1940, the Group's estimated liability would amount to approximately \$145,000 for that year. No provision is made such tax for the period Jan. 1, 1941 to date, the estimated liability for which, on an individual company return basis, amounts to approximately \$75,000. The above amounts apply only to subsidiary companies; no provision for this tax has been considered necessary for the parent company.

(3) The above figures insofar as they relate to the calendar year 1941 are preliminary, being subject to verification by the auditors. Certain previously published figures have been reclassified herein for comparative purposes.—V. 153, p. 1267.

Neither has provision been made by the company for Federal income taxes for the six months ended June 30, 1941 as the company will claim a deduction in 1941 for loss on its investments in Deep Rock Oil Corp. and Deep Rock Oil & Refining Co. as a result of adjudication in April 1941 of the proceedings for reorganization of Deep Rock Oil Corp. under section 77B of the Bankruptcy Act.

### LOW AND HIGH SALE PRICES

\* Bid and asked prices; no sales on this day. † In receivership. a Def. delivery. n New stock. r Cash sale. x Ex-div. y Ex-rights. ‡ Called for redemption.

**FRIDAY - WEEKLY - YEARLY**

NOTICE—Prices are "and interest"—except for income and defaulted bonds. Cash and deferred delivery sales are disregarded in the week's range, unless they are the only transactions of the week, and when outside of the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year. The capital letters in the column headed "Interest Period" indicate in each case the month when the bonds mature.

For footnotes see page 277.

Δ Bank Eligibility and Rating Column—Indicates those bonds which we believe eligible for bank investment.

γ Indicates those bonds we believe are not bank eligible due either to rating status or some provision in the bond tending to make it speculative.

z Indicates issues in default, in bankruptcy, or in process of reorganization.

The rating symbols in this column are based on the ratings assigned to each bond by the three rating agencies. The letters indicate the quality and the numeral immediately following shows the number of agencies so rating the bonds. In all cases the symbols will represent the rating given by the majority. Where all three agencies rate a bond differently, then the highest single rating is shown.

A great majority of the issues bearing symbol eee or lower are in default. All issues bearing ddd or lower are in default.

# NEW YORK CURB EXCHANGE WEEKLY AND YEARLY RECORD

NOTICE—Cash and deferred delivery sales are disregarded in the week's range unless they are the only transactions of the week, and when selling outside the regular weekly range are shown in a footnote in the week in which they occur. No account is taken of such sales in computing the range for the year.

In the following extensive list we furnish a complete record of the transactions on the New York Curb Exchange for the week beginning on Saturday last (Sept. 13, 1941) and ending the present Friday (Sept. 19, 1941). It is compiled entirely from the daily reports of the Curb Exchange itself, and is intended to include every security, whether stock or bond, in which any dealings have occurred during the current year.
